Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 5, and 6 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Knudsen'851 in view of Harlow'864 as discussed in the previous Office action.

Claims 1-3, 5, and 6 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Knudsen'851 in view of Benjamin'455 as discussed in the previous Office action.

Allowable Subject Matter

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 8/13/2002 have been fully considered but they are not persuasive. Applicant's argument that Knudsen et al'851 cannot be used as prior art because Knudsen has a patented date of November 6, 2001 which is after the effective filing date of February 8, 2001 of applicant's application is NOT persuasive. Examiner suggest applicant's counsel to review **35 U.S.C. 102(e)**. A copy of which is provided below: **35 U.S.C. 102() the invention was described in-**

Art Unit: 3632

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in

section 351(a). Knudsen's patented invention has an effective filing date of July 15, 1999 which is before applicant's effective filing date thus is considered prior art under 102 (e). In response to applicant's arguments against the references of Knudsen, Harlow, Benjamin individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3632

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
